Ms. Sang Sook Choi
U.S. Environmental Protection Agency
Region V, Environmental Review Board
5ME-19J
77 W. Jackson Blvd.
Chicago, IL 60604-3590

Dear Ms. Choi:

In 1989, a Technical Review Committee (TRC) was established pursuant to Section 211 of the Superfund Amendments and Reauthorization Act of 1986 (SARA), to provide a review of environmental programs and proposed actions at the Naval Training Center (NTC), Great Lakes, Illinois. It is the purpose of the TRC to facilitate regulatory and public participation consistent with applicable laws.

Specifically, the role of the TRC will be to review and comment on results of the Installation Restoration Program (IRP) field investigations, and proposed interim and final remedial actions to the extent of any possibility of contamination at sites undergoing study.

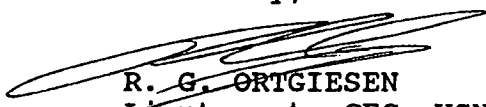

The second TRC meeting is scheduled to be held at NTC, Great Lakes, Building 1, Management Information Center, Room 239, at 10:00 A.M. on 27 April 1992 and will last until approximately 12:00 P.M. Please contact us by 23 April 1992 to confirm your attendance at this meeting.

The enclosed material forwards to you a map showing Building 1 where the TRC meeting is to be held, and Building 130, where visitors may obtain passes prior to entering NTC, Great Lakes.

Further information regarding the TRC meeting may be obtained from LT R. G. Ortgiesen, NTC, Great Lakes Staff Civil Engineer, at (708) 688-3482, or Mr. Robert Ogradowski at (708) 688-2796.

Thank you for your assistance. We look forward to meeting with you on 27 April 1992.

Sincerely,

R. G. ORTGIESEN
Lieutenant, CEC, USN
Staff Civil Engineer
By direction of the Commander
